Work Experience

Freelance Web Developer August 2024 – July 2025

Freelancer

- Developed informational websites from scratch using HTML, CSS, and JavaScript, ensuring responsive design and user-friendly experience.
- Conducted regular server maintenance to optimize performance, enhance security, and minimize downtime.
- Engaged in client meetings and negotiations, ensuring clear requirement gathering and successful project delivery.
- Provided client training and support, contributing to long-term customer satisfaction.
- Handled end-to-end server maintenance and hosting management, ensuring stability, security, and reliable uptime.

Web Developer May 2022 - July 2024

Sourcecode.com.mm

- Developed and maintained server-side logic using Laravel and Vue.js ensuring optimal performance and responsiveness of web applications.
- Designed and implemented RESTful APIs for communication between the front-end and back-end systems.
- Conducted thorough testing and debugging to identify and fix software defects, ensuring high-quality code.
- Conducted on-site client negotiations and information gathering, provided POS system support, and delivered comprehensive client training to ensure running smoothly.
- Assisted in the development and maintenance of WordPress websites, contributing to UI/UX improvements. (SEO).
- Designed and optimized database schemas (MySQL) for efficient storage and retrieval of large datasets.
- Working closely with managers, team lead and developers. Utilized version control systems (Git) for efficient code management and collaboration with team members.
- Experienced in providing onsite support during application launch, ensuring smooth deployment and operation while the system ran in production.

About Me

I am a highly skilled and motivated web developer with three years of hands-on experience specializing in PHP(Laravel) and Vuejs. My expertise lies in crafting robust, scalable, and efficient web applications that meet and exceed client expectations.
